## DETAILED ACTION

### *Oath/Declaration*

1. The declaration filed on Sept. 30, 2003 is acceptable.

### *Claim Rejections - 35 USC § 103*

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1,3-10,12-18 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lewis et al (5,307,523) in view of Frank (4,162,542).

Lewis et al discloses a protective eyewear 11, comprising first and second eyepieces 12,13 formed of uniform material, wherein said first and second eyepieces each comprise an eye cup and a lens integrally formed with said eye cup to comprise a unitary eye cup/lens combination, and a nose bridge coupled to each of said first and second eyepieces, said nose bridge comprising first and second supports and an elevated rise that reduces blockage of ultraviolet light from the nose and brow area of a wearer when attached, However Lewis et al does not discloses the nose bridge removably coupled to the eyepieces as claimed. Frank discloses eye protectors wherein the nose bridge removably coupled to the eyepieces for the same purposes of as disclosed by the applicant. Since Lewis et al and Frank are both from the same filed of endeavor, the purpose disclosed by Frank would have been recognized in the pertinent art of Lewis et al.

It would have been obvious at the time the invention was made to a person having ordinary skill in the art to modify the nose bridge in the Lewis et al reference by forming a nose

bridge removably coupled to the eye pieces in light of Frank's teachings for the same purpose as disclosed by Frank as the same as the applicant does.

4. Claims 20,21,23 and 24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lewis et al in view of Frank as applied to claims 1,3-10,12-18 above, and further in view of Haslbeck (4,348,775).

The claimed invention in claims 20,21,23,24 are disclosed by Lewis et al in view of Frank wherein the nose bridge removably coupled to the eye pieces instead of the adjusting eyepieces as now claimed. Haslbeck discloses the eye protector two adjusting eye pieces relative to the nose bridge for the purpose of adjusting the eye pieces relative to the nose bridge. Therefore it would have been obvious to a person having ordinary skill in this art to modify the removable eye pieces of Lewis et al in view of Frank by forming removable adjusting eye pieces in light of Haslbeck's teaching for removably adjusting the eye pieces individually as the same as the applicant does.

***Allowable Subject Matter***

5. Claim 25 is allowed.

6. Claims 2,11,19,22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
